

# Competency Checklist: Cutters

Student Name:

Instructor Name:

Date:

## SET-UP

	Confirm best tool choice for application at hand
--	--

	Mark intended cuts on material
--	--------------------------------

	Set up the cutting surface such as self-healing plastic cutting mat or MDF fiberboard
--	---

	Obtain a guide such as a cork-backed ruler
--	--

	Clamp material as needed
--	--------------------------

## OPERATION

	Angle blade away from body while cutting
--	--

	Hold material firmly while working if not fixed
--	---

	Keep the blade vertical and run it against the cork-backed ruler while cutting
--	--

	Repeat cut as necessary
--	-------------------------

	Secure or cover blade when cut is complete
--	--
